RELATIVE PRICES OF FRESH FLUID, EVAPORATED AND CONDENSED MILKS
(to represent equivalent costs in terms of milk solids)

UNITED STATES DEPARTMENT OF AGRICULTURE, BUREAU OF HOME ECONOMICS

LIBRARY
RECEIVED

Compare the costs in this table. If evaporated milk is 7.5¢ per lb. ★ fresh milk must be 8¢ per qt. and condensed 8.8¢ per lb. to be equally economical. Either 17.0 oz. (1.063 lbs.) of evaporated, or 14½ oz. (0.906 lbs.) condensed contain the same amount of milk solids as 1 qt. fresh milk. ★ Agriculture
